Date: March 19, 1971

Andrew Hardenbergh
40 Waverly Road
Branford, Connecticut 06405

Anent above job random thoughts:

- ** 1. All junk to you is yours forever, cut it up, tear it out, as you see fit.
2. Classic quotes.
- Professor at U of M Art School, "Hardenbergh, why don't you use a larger sheet of paper instead of trying to put all this information on one sheet as if you were drawing postage stamps?"
 - From Architectural Forum circa 1940, "There is no such thing as genius in Architecture. Finest Architecture is only created with the most painstaking analysis."
 - Clarence Hardenbergh to Collis Hardenbergh 1935 when Collis driving as both go downtown to work in 7 year old Pierce Arrow, "You're not really lazy Collis, only where you're not interested; you're a very hard and thorough workman when interested."
 - Collis, "Architecture is what gets built. Pretty picture of unbuilt work is only Art."
 - Simplify and make lighter.*

Collis
